Call for FULL PROPOSALS for RED MEAT RESEARCH

Deadline: 31 January 2018

Red Meat Research and Development Sout African (RMRD SA) has a mission to enable and fund world-class research and to develop technology transfer programs to ensure that the South African Red Meat Industry have the technology and know-how to deliver, in a profitable and sustainable manner, the products which are most desired by consumers.

Within this framework, the **RMRD SA** invites **FULL PROJECT PROPOSALS** from researchers based at South African universities and centres of research, to undertake studies in accordance with the RMRD SA Research & Development plan for Cattle and Small Stock. The latest plan is available on our website, see below.

Interested researchers are requested to REGISTER on the ONLINE system, www.rmrdonline.co.za first. Once registered login and complete a FULL PROJECT PROPOSAL, download a pro-forma form and the instructions before completing the application online. Your application can be filled in over several sessions, merely use the 'Save and Return' function to continue at a follow-up session. Please note the Committee requested that all researchers need to nominate 5 reviewers as part of the application.

Visit www.rmrdsa.co.za for more information, the Focus areas and Priority areas for research. Submit completed applications before or by **31 January 2018**, for it to be considered at the next Committee meeting.

Please note that our current researchers with Active / Live projects have to submit their Progress or Final Reports via the ONLINE system henceforth. Should you experience any difficulties with our new online system, please send an email to web@rmrdsa.co.za. The matter will be attended to soonest.

Yours sincerely,

Prof Hettie Schönfeldt
RMRDSA
